Realising the full potential of innovative ideas for technologies, products & services of common interest to your association members, can be blocked by lack of resources. To counteract this, the European Commission's R4SMEA programme offers an attractive means to obtain funding to allow you to access vital R&D expertise, as well as routes to exploit the resulting innovations for the best benefit of your members. LOGOS invites you to a breakfast briefing to discover insights into key success factors and caveats to bear in mind, to help you to gain best advantage from the soon-to-be-published R4SMEA Call for Proposals.

**Come and join us on Tuesday 15<sup>th</sup> June!**  
**Breakfast will be served at 8.45 followed by the session starting at 9.00**
